

THE SKIN PROTECTION PLAN ALL INFORMATION AT A GLANCE

Together with you, your HAGLEITNER expert can compile a skin protection plan for your business. This outlines which products are to be used and how. The refills used in XIBU XL senseFLUID fulfil the regulations for personal protective equipment (PPE).

XIBU XL senseFLUID AN ALL-ROUNDER

ONE AFTER THE OTHER, READY FOR SERIES PRODUCTION

The XIBU XL senseFLUID dispensers can be mounted in a row. The XIBU XL combiKIT with connecting parts between the dispensers and the Y combiCABLE for the electricity supply (either with battery or mains operation) is available for this. All hand hygiene products can now be displayed in a clear and tidy way.

PERFORMANCE, PERFORMANCE, PERFORMANCE

The XIBU XL senseFLUID is not only sturdy and water resistant but also impresses with super fast dispensing and an energy saving mode for periods of low frequency use. Depending on the product, a refill is sufficient for 1,000 applications. The dosed dispensing ensures economical use and the amount to be dispensed can be determined individually according to requirements.

REFILLS - MIX UPS NOT POSSIBLE!

The refills with the various hand hygiene products are stored in space saving and easy to change vacuumBAGS. Refill and dispenser are colour coded to prevent confusion. Thanks to the special dispensing technology, the refill cannot become contaminated.

ONE FOR ALL

The XIBU XL senseFLUID dispenser works according to the principle of maximum efficiency. Each product is perfectly adapted for its particular use. The result is a compact range which covers all areas of professional hand hygiene.

COMPLETE OVERVIEW WITH senseMANAGEMENT

The XIBU XL senseFLUID can also be fitted with HAGLEITNER senseMANAGEMENT. The fill level and battery status are shown digitally via smartphone, tablet or PC. You now know exactly when a refill is required and can, therefore, also optimise warehouse management as well as servicing.

The patented vacuumBAG ensures 95% less waste than with products of other manufacturers. This is also because our refills ensure that everything is used whilst other systems waste about 13% or more. The packaging membrane of the

vacuumBAG is only a few micrometres thick and weighs only 21 grams. A standard waste container can, therefore, hold more than one million vacuumBAGS.

XIBU XL senseFLUID ORDER INFORMATION

XIBU XL senseFLUID Art.-Nr. 411030107000
H x W x D: 29.5 x 15.5 x 11.8 cm

Proven HAGLEITNER Service

We offer you not only individual advice in your product choice but can also mount the XIBU XL senseFLUID at the required place and assist you as partner in all hygiene questions. Furthermore, we also support you in training your employees and can provide training documents.

1 FLEXIBLE ROW MOUNTING

The XIBU XL combiKIT allows you to mount several dispensers next to one another and supply them with electricity.

2 EASY BATTERY CHANGE

The battery can be changed in a matter of seconds - thanks to the easily accessible and removable compartment.

3 WATER RESISTANT

The whole dispenser is water resistant and can be effortlessly cleaned with a high pressure cleaner.

4 senseMANAGEMENT

The optional senseMANAGEMENT technology enables the digital display of fill level and battery status and, in doing so, optimises servicing.

5 „NEVER EMPTY“

A reserve tank ensures that operation is also guaranteed even if the vacuumBAG is empty.

6 ONE FOR ALL

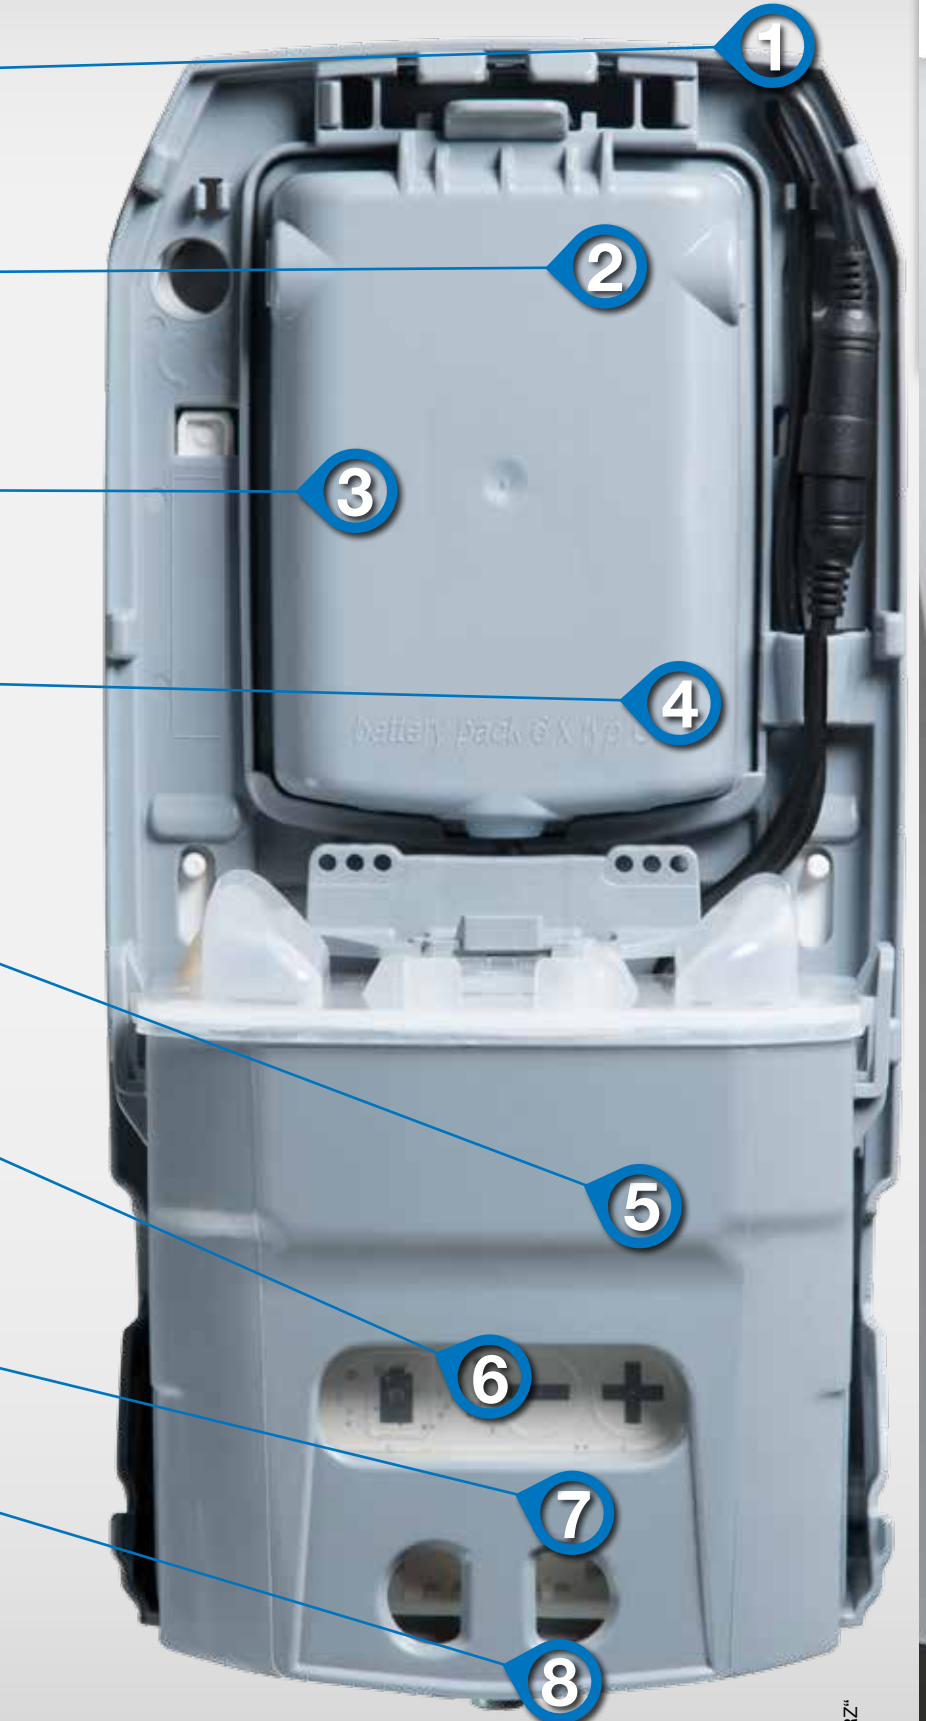

The XIBU XL can be used for skin protection, soaps, abrasive soaps, disinfectants and hand creams.

7 TOUCH-FREE

Dispensing is fast and touch-free - simply hold your hands under the dispenser.

8 SUPER FAST DISPENSING

The XIBU XL has a super fast dispensing technology which is activated at peak times.

Innovative Hygiene.

XIBU XL senseFLUID
Skin protection and hand hygiene

SKIN PROTECTION

- before start of work
- before or after work in a damp environment or if hands have to be frequently washed
- before use of protective gloves
- before contact with dirt, grease, oil
- before work which may harm the skin

APPLICATION

Apply skin protection lotion to clean and dry hands and rub in carefully. Apply again after long periods of work or intensive contact with water.

AREAS OF USE

Industry and trade particularly health & care as well as catering & hotel industry.

THE INVISIBLE GLOVE –

handPROTECT 6 x 750 ml, item no. 4110703105

This fast absorbing, soothing skin protection lotion leaves an effective protective film on the skin - like an invisible glove. Does not contain silicone, is skin neutral with excellent nurturing properties. Gentle fragrance of camomile. Dermatologically tested. Ph skin neutral, does not contain soap, colours or parabens.

SKIN CLEANSING

- before start of work
- if hands are dirty
- after going to the toilet
- before breaks
- after end of work

APPLICATION

Apply the soap dose to dirty, moistened hands. Rub in thoroughly with water until dirt has dissolved. Rinse well with luke warm water.

AREAS OF USE

Particularly suitable for the catering & hotel trade as well as industry and trade.

HAND SOAP –

creamSOAP 5 x 1050 ml, item no. 4110701339

Thick, high quality liquid soap for light to medium soiling - does not contain fragrance or colours. Ensures hands are clean and cared for and prevents dryness. With pearl shimmer. Dermatologically tested. Does not contain silicone, soap or parabens. Awarded the EU Ecolabel.

SKIN CLEANSING

- for dirt with oil, grease; brake and graphite dust; soot
- before breaks
- after end of work

APPLICATION

Apply abrasive cleanser to dirty, dry hands. Rub in well without water until the dirt has dissolved. Rub with luke warm water and rinse thoroughly.

AREAS OF USE

Particularly in industrial fields e.g. auto workshops, metal processing industry, paint / varnishing businesses and printing.

FOR MEDIUM SOILING –

abrasivUNIVERSAL 5 x 1050 ml, item no. 4110703339

Effective against oil, grease; brake and graphite dust as well as soot. Dermatologically tested. Ph skin neutral, does not contain silicone or soap. Light fruity fragrance. With microgranules. Does not contain parabens.

FOR TOUGH DIRT –

abrasivPOWER 5 x 1050 ml, item no. 4110703439

Effective against diesel and machine oil, grease; brake and graphite dust. Dermatologically tested. Ph skin neutral, does not contain silicone or soap. Green apple fragrance. Colour free. With microgranules (natural abrasive agent). Does not contain parabens.

SPECIAL CLEANER –

abrasivCOLOR 5 x 1050 ml, item no. 4110703239

Effective against paints/dispersion paints, varnishes, adhesives and printing black. Dermatologically tested. Ph skin neutral. Does not contain silicone or soap. Lemon fragrance. With microgranules. Does not contain parabens.

DISINFECTION

- before start of work
- after going to the toilet
- after cleaning
- before clean work

APPLICATION

Apply septDES GEL to washed, dry hands and rub in (including areas between fingers, sides of fingers, nail folds, finger tips, thumbs and wrists) without diluting with water. Whilst the gel is taking effect, hands stay moist.

AREAS OF USE

Particularly suitable for public areas with increased hygiene requirements e.g. washrooms, airports, rail stations, shopping centres, offices, public institutions, all health and care fields as well as veterinary medicine.

HAND DISINFECTION –

septDES GEL 5 x 1000 ml, item no. 4110708639

Virucidal hand disinfection gel, which contains alcohol, for use on the skin. Absorbs quickly. septDES GEL is fragrance free, particularly skin friendly and does not contain cumulating active ingredients with long term effects which can accumulate on the skin and lead to skin irritations. Does not contain silicone, soap, colours, preservatives or parabens. Lipid replenishing and soothing. Dermatologically tested.

SKIN CARE

- after end of work

APPLICATION

Apply the handCREAM to clean dry hands and rub in carefully.

AREAS OF USE

Particularly suitable for health & care fields, industry, catering & hotel industry.

SKIN CARE –

handCREAM 6 x 450 ml, item no. 411070290100

The moisturising hand cream for cared for, soft hands is quickly absorbed and does not leave the skin feeling greasy - the skin's natural balance is maintained. Dermatologically tested. Does not contain silicone, soap, colours, fragrance or parabens. Lipid replenishing and soothing.
